Director's Report
September 16, 2020

1. Passenger statistics

Total passengers for August were 2,453 compared to 1,982 passengers in July. For September SkyWest has only one (1) daily round trip flight. However, starting in October SkyWest is planning two (2) daily round trip flights on Sundays, Mondays, Thursdays and Fridays. August load factor was 49.5%. MTD load factor is 75% September. Current advanced bookings for October are 14%.

2. Miscellaneous Projects

Operations personnel have completed the second phase on redoing the landscaping between the terminal building and parking lot. As I've previously reported they're replacing all the bark with new weed barrier and filling back-in with black aggregate. They plan on completing the third and final phase in the upcoming days.

The northwestern quadrant of the passenger parking lot received a sealcoat and remarking. Because the north and south eastern half of the parking lot had very few cars parked in the area, we were able to sealcoat and remark those areas as well.

The main water storage tank has been repaired and resealed. There was a one week curing time before the tank could be disinfected by the Water Guy and resupplied with water.

3. Airport Equipment

The airport has ordered the de-icing tank and associated pump equipment. There is a six (6) week delivery time period for the de-icing tank and only a five (5) day delivery period for the chemical de-icing fluid. The cost associated with adapting the new equipment to the truck's hydraulic system should be less than One Thousand Dollars (\$1,000). The de-icing tank equipment and fluid will be purchased using CARES Act funds.

4. Next airport board meeting

The next airport board meeting is a scheduled quarterly meeting with the County Commissioner on Wednesday, October 21, 2020 at 4 p.m. The last quarterly meeting was canceled due to lack of commissioner agenda items, and this quarterly meeting may be canceled too. However, we'll still hold the airport board meeting as currently scheduled.
