Dear Northeast Wyoming Regional Airport Board, Flightline LFS has taken an interest in leasing the old Gary Garland hangar. We are asking to lease the hangar for 500\$ a month and we will incur the monthly utility costs. We are worried that if a tenant leases this hangar outside of our company they will get in the way of our operation when the new FBO is built beside it. Let us know if you have any further questions, comments or concerns over this matter and we thank you for your consideration!

Best regards,

Justin L Holzer
