Program Determination for FFY2019

Dear Robert Tranas:

The Early Intervention and Education Program (EIEP) of the Wyoming Department of Health, Behavioral Health Division, has reviewed the information provided through self-assessments, monitoring visits and other public information, and has determined that Child Development Center of Campbell County Center (Region 13) **Meets Requirements** for the implementation of Part C of the IDEA 2004. The EIEP has noted that the program did meet its targets for Indicators 1, 30 Day Timeline, Indicator 2, Natural Environment, Indicator 4, A, B and C Family Outcomes and Indicator 5, Child Find. The compliance performance was met for Indicator 7, 45 Day Timeline, for the last three reporting years and Indicator 8a and 8b, Transition.

The EIEP's determinations for FFY2019 were based on the totality of the region's information including any compliance issues. The factors that affected the determinations were whether the region: (1) provided valid and reliable data, (2) demonstrated compliance or timely corrected noncompliance, and (3) in instances where it did not demonstrate compliance, had made progress in ensuring compliance over prior performance in that area.

The EIEP has noted the program has not met the performance targets in Indicators 3a SS1 and SS2, 3b SS2 and 3c SS1 and SS2, Child Outcomes. All targets that were not met were affected by COVID Health Restrictions and therefore were not a reflection of any systemic issue in carrying out IDEA regulations.

The EIEP is committed to supporting the regions' efforts to improve results for infants and toddlers with disabilities and their families and looks forward to working with your region over the next year. If you have any questions, or want to request technical assistance, please do not hesitate to call Christine DeMers, Part C Coordinator, at 307-777-5246 or Kathy Escobedo, EIEP Program Manager, at 307-777-6972.

Sincerely,

Kathy Escobedo, Manager
