Comments

Thanks

Local government is just as out of control as the fed gov. Cut spending and let private enterprise take over all of the government businesses.

The Cities and County need to cut back on spending. People that manage city and county checkbooks need to realize that it is NOT their money. The city and county need to get away from this spend, spend, spend mentality.

As a retired senior, I feel good when I see the signs

designating the different projects, as 1% Sales Tax at Work. I found it difficult prioritizing the funding areas, they all seem important..

The Gillette College should be self supporting by now. No more money.

More county involvement in the outlying communities (Rozet, Recluse etc) - parks with gazebos for picnics

Thank you for the time and effort it takes to get feedback from your citizens

I believe the City and County have done an outstanding job using the 1% Sales Tax where it has been most needed and benefits the majority of the citizens.

none

I will vote against this if I can, Gillette elected officials just don't know how to spend the money wisely....

Maintaining a young, educated and motivated workforce will attract new and long term businesses to Gillette and Campbell County and ensure a vibrant and long lasting economy.

WE NEED A BIKE PATH FROM RC RANCH TO REMINGTON ESTATES ALL THE WAY DOWN ENZI DRIVE. WITH THE AMOUNT OF PEOPLE LIVING IN THAT AREA AND THE NEW REC CENTER, ETC, IT IS TOO DANGEROUS FOR THE KIDS.

The City of Gillette priorities should be development of infrastructure (streets, water, sewer etc) in a manner that will allow for planned growth, and the maintainance of the infrastructure. Followed by the maintainance of the structures it owns and operates by way of establishing a sinking fund that will guarantee this even during bad times. Youth, recreation, parks and the elderly should be funded as available after the top priorities are accomplished.

I am thankfull that Gillette has the 1% tax as I recall when Gillette was a dirty, dusty, treeless town.

let's keep penny power working for the whole county

Invest in economic development and diversification. Diesel and gas from coal. Incentify quality processes. Do not fund social services that are competing with private businesses (R.E.N.E.W.).

2nd street from Gillette Ave to 4-J has really gotten bad and I would really like to see it be repaired or redone if the 1% tax is approved again.

the CURRENT ROAD CREW working on Beaver st and the subdivision behind sage valley is a joke to this city. The crews are lazy and never working, that project has carried on all summer and should not be taking this long, what a waste of our city funds Explain what each proposal involves in great detail whenever this survey is created next. Some people don't know about the details of all the proposals and I believe that is why some over look or don't properly prioritize the things they want.

I'd like to see greater support to the Boys & Girls Club. They need a larger facility so they can work with more children to provide for homework help, positive role models, & recreation. Supporting the Boys & Girls Club will lessen the number of young people who need the programs of the YES house.

I believe a pedestrian walk over bridge at the intersection of 4-j and walnut would be a great solution to the safety of children crossing 4-j to get to and from school.

Time to stop building new facilities and start maintaining current facilities and funding future replacement. It appears we built a new rec center without a good understanding what it would cost to operate and upkeep!

Throwing money at something does not necessarily improve it. Spend our money wisely & for the benefit of all citizens. With the economy slowing down, we need to have enough money on hand to maintain all of the county facilities that we already have.

Gillette, Wright and County to be commended for all they do and the amount of dollar leveraging they are able to accomplish through grants, etc. Gillette and CC need to ensure they are supporting local vendors, contractors, professional service providers.

Get good infrastructure in before you worry about ugly statues and such. Trees and plants are good beautification efforts, but we have wasted millions of dollars on "Avenues of Art" when snow removal and street conditions are deplorable! If we are going to keep this tax around, quit spending the money on frilly things and get us some good infrastructure and facilities. You're doing a great job. Thank you.

I was really hoping to see something in here on the Challenger Learning Center.

I feel that the roads, sewers, water systems etc. should NOT be part of Penny Power. This money is extra money that is collected and should be used for other uses than city problems that were not taken into consideration years ago for replacement or repairs.

In the city of Gillette's part # 8 or H, I don't see we need to fund "and other commercial corridors". Thank you. Since we spent so much money on Hwy 59 why can't the manholes be flush with the streets? It's like hitting potholes in some areas. And the road is breaking up.

Our City Council & Adm are doing a GREAT job! Keep up the good work!

Take some of this 1% tax money & help fund the water supply project so our city of Gillette water/electric bills do not increase (to pay for the new water supply project).

What happened to the Garner Lake road improvement that was supposed to be done this summer? I wish the City or County would have gone ahead with a better overpass on Gurley. There needs to be a way to walk & ride a bike over the tracks. What happened to the downtown improvement? There was a huge study done on this.

Replace all faded stop signs-dangerous!

How do you decide what is the most important? Should be split equally and see who does the most with the money not just to extras they don't need.

You guys are a bunch of hypocrites to be asking where we want to spend the penny after not letting us vote on the rec. Thanks for asking!

Stop using chloride substance

Leave downtown area alone! Gillette Ave. is the only street with any historical significance. Don't use my penny power for a "water element" (ditch & a bridge) where not needed!

It would be nice to see the ice rink open year around instead of being set up and taken down during summer months to let building set vacant 50% to 70% of the time. I believe the ice would be used as it is in other towns - CASPER!

We need more interest in the fair! And the fishing lake needs dredged out & should have walleye put in!

The fair needs to be better! The kids learn responsibility, honesty, respect & leadership. Fishing lake needs dredged & needs walking path that does NOT go by the traffic!

Why aren't we putting money into Rozet? All money goes to Wright. Let's put some money into the town of Rozet.

A dog park would be a great addition to Gillette projects and help keep other parks clean. There is a definite need for dog owners to have a safe, fun place to take their dogs to play. Some kind of water for them to play in would be really nice.

Ranchers pay their share of Penny Power and get the least benefits for county roads. In other words - we're left in the dust.

Do not like what is going on the streets this winter for ice - It will damage the cement areas. It will take the glaze off.

Cement will crack and deteriorate - rust vehicles.

City should find their own water and sewer projects. 1% should not be used for city infrastructure or maintenance of the same. Community projects, not city. Fire Dept. has enough toys. 1% should not be used for college facilities and maintenance repairs should have been thought through and known funding at time of capital outlay.

I don't like what they are going to put on the streets for the ice. It will ruin the cement and cars. It is corrosive. I know what it did when I worked for the City in Maintenance.

City: Maintenance of city streets and parks.

County: Maintenance of Bike Paths, not development of new.

this is a great community. We must continue to be pro-active -- preparing for the future and finding economic diversity. Need to maintain the facilities we have and improve the road ways for better traffic control.

I would really like to see us use our resources wisely. I see waste - for example building a lovely flower plot by Complex several years ago & then tearing it out again. Also, flowers were neglected at the new rec center in planters, died, and had to be replanted. For the most part, good things are happening with the funding.

We have enough streets and roads. We need more shopping and restaurants. They say "Shop Gillette". We really don't have any place to shop and more over the prices are too high. Upgrading this would create jobs and help our city progress. There is a lot of disposable income here, why not do something to keep it here.

Seems we've been paying too much for and had rationing too long. the water supply projects should be stepped up. We are paying for our civil leader lack of foresight and apathy.

Projects for improvement in public health and safety are the most important. Maintaining the public facilities and roads are close second.

The City of Gillette (and County) do an awesome job of keeping the city neat and clean. The hospital and ambulance and firemans crews are the best. I wish I could thank all of them personally.

Pave subdivision road to control dust and up property values, and this will add to the mill levy.

Pave the subdivision with the carbon money's.

I think keeping the streets upgraded & keeping our corridors & arterials landscaped/green will be the best investment for our area to keep people here & bring quality people to Gillette.

I live outside City limits.

Since funding is tight the old state shop could be used by the fire dept. instead of thinking they need the best of everything. They should cut back as others are expected to do.

Go back to the free gravel. It would help a lot of people that live on the LVB Road. We could keep up with the road. The school buses use this road. Its not a county road but it should be. Some of the ranchers have better roads up to their houses because of politics.

We need to maintain what we have, every time we expand its allowed to grow over and is ignored.

We need to take care of our handicapped and underprivileged persons - they work for minimum or below minimum wages - pay the same prices as everyone else. Please include them on your survey.

1% sales tax has outlived its purpose. City and County government has embraced an "entitlement attitude." Taxes are out of control, 1% tax needs to be repealed.

I don't see a need for Penny Power when we build sidewalk bike trails and the people don't use them. Are messed up law people don't make the kids and people use them. They would rather walk down the middle of the street and ride there bike down the middle of the street. I am not for it at all.

The drivers in Gillette remind me of California and Colorado. Drivers training in school should be a required subject. All people should be required to take an 8 hour driving refresher every time they renew their drivers license.

The one cent tax was a tax that was designed and meant to go away and that clearly is never going to go away. All of these projects should be budgeted for and one cent used for extraordinary issues.

I am proud to be a part of this community.

Retired.

The best part of Campbell County is that it is family friendly. Let's keep it that way. Good job!

This County has a relatively low crime rate. I'd like to be assured that it stays that way.

1. Not enough demand for an airport in Wright. It would be unable to be competitive enough for affordable tickets. 2. We desperately need bike/walking paths along Hwy 1416 from Cam-Plex west to Douglas Hwy. Before one of the High School runners are injured or worse!

One more tax that will never go away. People always want more.

I believe that a shooting complex for Campbell County would be an added benefit to both communities. The shooting range in Gillette is wanting to be moved, Wright is trying to build one. 4h shooting sports has the most participants than any other 4h activity in the state. If we were to have a complete shooting complex that involved everything from indoor/outdoor range/1000 yards. shotgun, urban assault range. the police could have the benefit as well. But it needs to be accessible for Wright residents as well.

Why are my pennies going to replace and repair sub. that aren't even 5 years old (Lakeland Hills, Doud Sub., Hillcrest Dr., Meadow Rose). Someone isn't doing their job! All gov. offices are new or completely remodeled. There is no reason to blow more money on them, use it to create revenue not waste it! (Fire Station, Courthouse, City Hall, Police Station, City Maintenance and Sheriff Station Jail are all new or remodeled)

After 25 years, an auditorium in Wright would be so good for this community! We've waited so long! Please consider this venue - it would be used majorly. I'm saddened that it isn't an option for people to vote on finally.

It is a waste of money to keep pouring it into something (fire station, police dept.) that you just built. The economy is bad enough without wasting more money!

Need county regulations about junk cars and vehicles - many areas of the county have junk cars on lots within eyesight.

Need more paving of county roads - I live off the Montgomery and it is heavily traveled.

Youth programs especially Boys & Girls Club

Because the Cam-Plex & all facilities with it should not get 1 cent of money being it was built against the vote of the people and the same for the airport and events center.

Need a sidewalk along Enzi Dr. from South Campus to Southern Drive, especially with the new Rec Center

I am so grateful for the completion of the Rec Center. Now our families & exp. youth have an engaging form of activity. The family that plays together - stays together!

Legacy Park is beautiful but has very little playground equipment. Would like to see more of that and we sure need to fix those potholes and repair the streets

I'd like to see the City and County acquire some large natural prairie areas to be maintained fairly naturally except for mowed paths, etc. for walking dogs, hiking, horsebacking, nature studying, etc. Is there any chance we could buy the little pond/pothole on Boxelder-Butler Spaeth and keep it just as it is? Waterfowl Heaven!

I am not for it at all.

The 1st time that I voted for it, we were told that we could vote it out at any future election. Now we are threatened with more new taxes if we don't keep it. I will vote against it whenever I can. I will also vote against any one who favors it.

I would like too bike paths connecting every school and park in Gillette. We should have bike paths out to and around Cam-Plex too. The drainage problem in the industrial park area is extreme - please address it!

Let's concentrate on building community instead of roads most of the time.

Need to fix street damage on Madison and EZ Streets. Also extend Madison to the East. County should take over Tongue River Road and improve it, because of the traffic it carries. Could do a better job maintaining road if didn't blade such short stretches. Turn around take a lot of time.

Thank you for including rural people on this survey. I often feel we are left out of decision making.

The 1% tax is a (LUXURY TAX) do you get that, (LUXURY TAX)!! Its not to be used for general city/county issues. I pay an electric bill for that dept. I pay sewer and water fees for those departments. This tax is to be used for things that we can do. Subdivisions need help maintaining roads to control dust.

We have plenty of entertainment venues cities/county doesn't need to fund any more. What's wrong with the multi-million dollar fire station by the hospital? Maybe improve the rural stations. Get them out of their prehistoric trucks.

The Boys & Girls Club needs help - it is very important to the whole county! However, the cost of its services should be means based.

Areas on the south side of town near the Rec Center do not have completed sidewalks or bike paths. Makes it unsafe for youth to walk or ride bikes to the Rec Center. Silly, ain't it?

I'm sick and tired of city and county just pissing away money. Defeat 1% is my battle cry!

Campbell County needs to do more road assistance to outlying subdivisions and less for ranchers!

Gillette needs to quit re-doing projects (streets) and do it correctly the first time. Example: City Hall Renovation.

I believe wherever the school bus goes on all county roads, dirt, gravel or paved should be maintained ALWAYS by the county road and bridge crews.

I would like to ride my bike to work, so better street maintenance or bike paths & more areas would be nice ! thanks !

I feel you are taking advantage of the 1% giving to things that are supposed to make it on their own. Example F. (Gillette College) Its mostly a bailout or personal preference to spend where you want. I you want to help me give us the 3 loads of scoria back to I can have a good road. We are off the county road me and several others that used the scoria to do our roads, no high dollar trees to make us look rich. Its not supposed to be a slush fund.

retired

It is difficult for subdivisions to get help with roads, and water. They are drilling another well out here for us, how long will it be before we have to do this again, and we are paying over \$100.00 mo. now just for water.

retired

Start using money for Roads and water, things like that instead of pissing away money on things that don't deal with infrastructure - (Rec. Center, Youth Programs a waste of money airport for Wright etc...

I want to see extra monies put into the capital reserve replacement fund and never touched. One day the city and county will need to delve into this fund in order to pay for the existing programs. There is way too much spending "like there is no tomorrow". You have to save money. Be diligent. My grandchildren need to grow up here w/ conservative monetary discretion. Thank you. Don Allen

senior citizens have been neglected in this program since 1976. We are all getting older and need to start doing things to keep our retired people here-not in Buffalo or another state

not gold plated capital facilities

As our population continue to get older we need more facilities and programs for our seniors to keep them here and a part of our tax base

retired

Water needs to be the #1 priority for Gillette along with facilities and programs for the senior citizens. It is finally time to give them some consideration with this tax

This money should be used for road & street repair and new streets only. Not for airport studies or anything that does not have to do with the plan for the money

I think lines on the streets should be done more often and not so cheaply done. They never last long. Let's get these lots with weeds cleaned up. Like the Clarion - Boxelder Road, Little Wash Boy lot across from Silverado-Boxelder empty but never tended to. The streets are dirty. Where are the streetsweepers and the parks people to catch up on the weeds, etc.?

Human Service & Substance Abuse should be private sector responsibilities

Upgrade gym for weight lifting in Wright. Make swimming pool more accessible, better hours. Shooting range.

Buy a b-ball court for Complex, give opportunity to host bigger tournaments/events. Place more speed indicator monitors in residential areas, the mobile trailers that post limit and actual speeds.

I think we overpay for new things like the Wyoming Center at Cam-Plex, Rec Center. We might need a new Rec Center but not 50m same at Cam-Plex. Think before spending that is why we buy a lot of stuff out of town. Cost of keeping things up. I think there is the misimpression sometimes that CC residents like fancy projects (i.e. Rec Center, Arenas). I, for one, would like the City & County to focus on issues that contribute to making Campbell County a pleasing place to live. Sweep the streets, mow the row, stop ruining open spaces with a lack of planning or zoning and quit using so much scoria in the winter.

We were told the Madison Project would last 45 years. What happened?

If we have to subsidize the airport why do we need another one?

Making bike and walk paths around Campbell County (Gillette and Rozet) helps to keep population healthy.

I will never vote for the 1 cent tax. Campbell County is the richest county around and they blow their tax dollars. The 1 cent tace is a Joke and B.S. Whoever puts th is Survey out should be ashamed of themselves. Campbell County Bragged that the new Rec Center is the Best in 5 states - they Bragged about the New Fire Station in Gillette - They have Bragged about Bringing in Glass hand rails from Germany for South Campus -- Then have the odassity to Ask for a 1 cent Sales Tax.

Would like to see more patrols on county roads. More snow and ice control on paved county roads.

Stop funding Economic Development - all we get out of it is a new mission statement every four years. Wyoming Center is a joke - 40+ million down the drain and now they say we don't have the population to support it. Without the 1% we wouldn't have any \$.

Fairgrounds in Wright would be well used. Children in Wright miss skateboard park, needs to be replaced.

How about we actual plan and build new Roads in GRID pattern. Extend Butler Spaeth to Warlow. MORE train track overpasses. STOPLIGHT at Boxelder and Garner Lake - that intersection is like running a gauntlet, no one knows how to do a 4 way stop?

The drug use is affecting every part of living in Gillette and needs attention on education prevention and treatment.

I think there needs to be more low cost or free things for kids (of all ages) to do. It will help keep more of them out of trouble. There also needs to be more to help kids already in trouble (for all levels - just starting to high levels) so they are not rushed through the programs.

moved from area but frequently visit Gillette

While fire suppression is important, gov't function to state simply -- enough is enough. At this point in time, investing money in downtown infrastructure and development more important. Streets, roads, storm drainage, solid waste always gov't functions and the first order. If this money is for extra's - beautification projects always nice / paths etc...

I work at NARM Coal Mine, which is close to Wright, where I live. It would be nice to see that Tax Money come to Wright more than Gillette.

The Town of Wright needs to remember they are a small community that does not need everything a larger community requires, the Airport is the most ridiculous request I have ever heard. Campbell County Airport struggles as it is.

Cervin Imus

Actually construct the streets in a GRID pattern. Need more than 3 train track over passes etc... Focus on the important stuff that is a part of everyday necessity and drop the eye pleasing fluff.

Understandable Gillette has more population - But we need a riding arena. Too far to haul our horses into Gillette to use their riding arena.

The riding and roping facility in Wright would be the best return for the money spent.

Library grounds have very poor maintenance. Parking lot dirty all the time same with grounds in front of buildings, the lawn trees and shrubs need taken care of better! It's a beautiful building, lets take better care of it.

I've lived here since 1977, we have done an excellent job. My pet peeve - business landscaping. Church St. has made millions & is still a dump. It doesn't need to be that way. You want people to shop in Gillette? Have you seen the outside of Ace Hardware lately? Apartment buildings in our subdivisions can bring our home value down. Arby's landscaping is what you need for a beautiful, clean looking town. You can use my pennies for a lawyer to enforce this law if there is one or to get a law on the books.

Gillette's a great place to live

I would like to see a clean-up effort for the Gillette Fishing Lake. Our parks are beautiful, but the lake is disgusting. I would like to see more bachelor degrees available at the college, especially early childhood education. The fire department and the hospital should not receive any more funding for things such as parking garages and over the top equipment & facilities. We are retired! and tired of all the wasteful spending in our county and town.

Taking care of roads & existing buildings & equipment should come out of regular budget not the extra 1% sales tax. There are other areas other than 4-J that have bike paths that are in need of repair.

(Comment in regard to Upgrade Fire Department facilities & equipment) You're kidding, right?

Done very well with allocating the "Penny Power".

The City of Gillette is doing a great job with improvements to the streets and expansions. Gillette is really growing.

Campbell County is doing a great job on roads by mowing the barrow ditches good twice or three times a year. I see Chuck out there on the John Deere all the time. All of the City and County employees working for snow removal are doing a great job too. God Bless the City of Gillette, Campbell County and Wyoming.

Need to take care of our youth & support YES House to expand

I am very uncomfortable being asked to complete the portion of the survey for Wright. What do I know about what they need? Not doing it. Sorry.

Fund postage for this survey! Stop the building glut. Take a breath when building to get the big picture i.e. Wy Center acoustics & no consideration for operation (Rec Center). We are now looking at maintenance for the state of the art Rec Center and not sure how that is going to work. We are remodeling the WY Center at Camplex. Acoustics should have been a consideration in the plan. You weren't building a horse barn.

Fund postage for this survey! Please keep traffic light on Hwy. 50 and Lakeway.

Bulldoze the whole town, relocate them elsewhere. Please take serious consideration of my suggestions for the town of Wright. It really is a god forsaken place that never should have been built. Its sole existence is hinged on lazy coal miners who wanted to live a little closer to work.

Clubhouse at Bell Nob need replaced. It leaks around windows and door when it rains. It has mold growing. Not big enough. Bell Nob has lots of golf tournaments with out of town people attending. Lets be proud of our clubhouse just as we are with the CAM-Plex

We need more sidewalks so kids are not forced to play in the road.

You may get a better response to the survey if you include a stamped envelope-kinda cheap to make the public pay for your survey

Great Job Gillette-U done Great !

Since I have only lived in Gillette around one year, I do not know what they need or want so I cannot give an honest educated opinion. (Sorry). From what I have seen so far, I am satisfied. Thank you for doing a good job.

I do not believe the taxpayers of Campbell County should be responsible for the city of Gillette's fiscal irresponsibilities and the incompetency, the county can trim its own budget and meet all obligations, with no new taxes needed

Gillette & Campbell County have and get so much money that, really, the 1% is not needed. When the wages of our "public paid" workers are outrageously raised and outbalance the median wages for our area, the public should vote down the tax. Our elected representatives are irresponsible.

Pave subdivision roads

will vote no-don't like taxes.

am not in favor. Will vote no-tired of taxes !

As our college grows so will a long term growth for the county development. There is land on 4-j Highway near the college now for sale & that would be excellent for future development. Colleges across the US are now buying land for expansion

Need a vendors park & a Flea market park

The new yard waste program is terrible. The dumpsters do not always get emptied all the way and this causes a terrible odor. Please return to the old system. If I were to find out if this decision was made by an elected official, they will no longer receive my vote.

Every road that is gravel and a school bus travels should be maintained by the County.

Although I appreciate road maintenance and parks and beautification of Gillette and Campbell County. I really see the need to support and expand Gillette College for community growth and Substance Abuse. In patient facility for community health Why do we have crap entertainment in Gillette ? When Casper & Sheridan have better like outdoor concert. With John Mellancamp in Casper & monster jam in Sheridan and Deputy Sheriff using county vehicles to pull personal boats and campers -what a waste of money !!

Gillette college has great facilities, but all that is worthless w/o competent & complete faculty and staff. Many students are enrolled due to bad economic times, but there is a shortage of faculty & staff due to short funding from state for the Wy center-tax payers paid for this-why is it that our people are going to Sheridan for the monster truck jam & they still have the weekly fest. No wonder people go out of town-I've been here since 1984 -this is awful-don't want to recommend Gillette to anyone !

Give Camplex back to County.

53 years doing beauty work & do have my own shop in my home. Worked for McDonalds for 15 years. 65 years out of school at Newcastle WY. 5 months beauty schooling at Sheridan. State Board at Casper. 1945 will be 50 years of schooling.

Gillette, WY -- High Priority --

Make people clean up weeds-old cars & junk in their yards in town. Some places are terrible !

Gillette only seems to worry about Gillette. There are other areas with in the county that need help. Do street repairs right the 1st time instead of re-working every year-watch contractors & contracts-get monies worth.

The beautification around Gillette looks great !! Gillette & what it offers has been greatly improved with 1% money
Slow traffic down on 4-J

We pay ridiculous taxes out here and can hardly get in and out to work b/c of our bad unmaintained roads and our lying county commissioners who said it would be done this summer and Osborn Bros said they had a contract with them to do this in Ruby Hills Subdivision and they backed out, gave \$300,000 to Recluse Community Center!!!

It really doesn't matter what we say -- Has been years asking to control dusty roads in County. Nothing yet. 2 things - It would be great if they could do something about CC Roads -- Also, how about an ordinance to clean up the county - what a pig pen - start with an ordinance about junk cars - the whole damn county looks like a salvage yard.

City of Gillette has a program to encourage clean roads, why doesn't the county? This place looks like a shit hole!! Junk cars everywhere and garbage. The dust on roads is unbearable at times. It is a dangerous health issue.

How about spending some money on dust control? Are we broke? How about making subdivisions clean up their junk.

The County could do a much better job of maintaining ALL county roads a little more chip seal in the subdivisions or use a lot more I-base road base.

doing a wonderful job making Gillette a better place to live :)

Temporary and new stop lights have made a big difference n town. Would like to see more left turn lights on heavy traveled streets -- a left turn at 59 and Second St (across from Hardee's and Quick Shop). Keep up the good work. Thanks again!

Need better snow removal in Gillette 4J streets and cul-de-sacs. Need a stop light at Lakeway and Dogwood - the main arterial for 4J subdivision south. also Boxelder and Wagon hammer. THANKS FOR SURVEY

Need to help all law enforcement (S. O. , P.D.) & fire dept.,Ems, stop focusing on Cam-Plex. It only helps with a small percentage. Use it for things mentioned above as well as Public Health. County Attorney's office could use help as well as early intervention. Tend to the needs of other communities & areas in Campbell County instead of always thinking of Gillette only.They/we all pay taxes-don't others deserve some of the benefits?

To take a left hand turn on Lakeway and Dogwood at 5:00 pm is almost impossibel (save a life) put stop light there. I have to use that road 4 days a week (not fun) thank you, Dan

As long as junk cars, trailers etc. are allowed around the city and county with no order to them this will never be considered a nice place to live. Our senior citizens and the families dealing with them need help. there's none out there.

Everything that brings revenue into this county is brought in by oil, gas, and coal from out in the country. Your people work out here and create the dust we have to live with. So far we have not seen any dust control to improve our quality of life.

Your questionnaire only mentions 1 thing for the county people. I will be voting against your penny power since we never seem to get any benefit.

Live north on Adon but work in Gillette. not enough for our kids to do and the juvenile issures are increasing. We are considering sending our children to Moorcroft to school because of the issues

need options for kids & sr's and decrease substance abuse to make it safer for kids !

Why should I even bother? You people are going to spend it however you want anyway. Personally I think the senior citizens should have it all !

Im tired of our fire dept wanting everything new, use the buildings thats there for maintenance

More stoplights in Gillette. Have more options for recylcing and trash pick up.

make it possible for single parents to find jobs during the kids are in school. Improve on single parent to get food stamps or welfare

The Rec Center landscape maintanance crew is not doing a good job of taking care of other county facilities, especially the library. What were once beautifully maintained grounds, the library now has weeds growing in cracks of the sidewalk and in the shrub and flower beds. I think the county should fund someone for the library.

Recreations center senior rate should start at 60 years old, same as the senior center. The health of our seniors should be of the highest priority. Many 60 year olds who have time for exercise can't afford the Rec Center adult rates.

Thanks for soliciting input.

Stop the extravagant spending on capital projects. such as our Taj Mahal new fire station, south campus HS, events center spruce trees for spruce street. We don't need a new building for fire maintenance-the old deisel dtechnology is more than sufficient. The new rec center is so extravagant that many believe we can't even afford utilities & maintenance. Wow ! The Avenues of Art is a waste of money. How many more times are we going to plant trees on Hwy 59 ?

These are nice, but not necessary - Get back down to a workable, lower, more efficient spending plan. Bring the budget down. Too many unnecessary government positions, get rid of some. Lower fees at CAM-Plex for craft shows, etc. We paid for the white elephant at CAM-Plex, can we at least get bleachers?????

Since we moved here in 1974, Gillette has made major positive improvements! Keep it up!

The bike ways are not used -bikers on Hwy ! Why put in miore? People who can't drive on icy roads maybe should move to Texas ! Those who ride bikes should be fined if they don't use them-the Wyoming event center at cam-plex--you can't hear the performers -very poor. We won't waste our hard earned money on tickets. why is Heritiage getting new equipment in the park-not used very often and we were updated not long ago.

We need money for high school band all year long. All the money goes to sports and nowhere else. All the other activities in high school have no money. The sports get it all. Maybe someone needs to look in to this.

Beautification is slowly being done but he garbage, weeds, etc. need cleaned up. It's an ugly town!

So much money has been paid in taxes and we are tired of seeing it all go to Gillette "town". The people living in the county would like their road sign markers looking good and our safety should count as well as for the school buses

The youth have a lot they can do-new Rec Center. But if they don't want to stay out of trouble & the parents don't look after and correct them, nothing will help. There are a lot of good kids out there - we never hear about them.

No more new buildings. There are emty ones. No more new schools. We went to school in shacks and did ok. Kids don't need mansions and castles to go to school. Stop coddling these kids and give them jobs! (fashioned after the CCC's). Also put the jailbirds to work.

We need a wider variety of places to eat and more shopping options, such as Target, Sams Club, mall, etc.

stop giving subdivision permits to help save water. Police patrol Higway 59 for speeding violations. People don't use bike paths, they still ride and walk on highways.

I appreciate for the most part how the city and county manages Gillette and surrounding area. We have a lot to be proud of.

We really need something downtown to make citizens want to congregate. Asquare with vendors outside, dinning street entertainers (except during inclimate weather) People I know want and need this. Part of Mary Kelly's vision?

there's a bike path on the east end of Souther Drive, nothing to the west end where most people live. it's not tied into Enzi Drive from the new rec center to southern drive, you have Remington Estates and other people on southern drive walking in the ditch or next to cars on the highway to get into town, make a loop west, tie into the bike pather by the fire station by the little store on 4-J west road.

streets & roads & highways should be top priority. Building new ones and maintaing what we got. Also no employee raises in city or county gov't

I voted no on airport & hospital improvements & the City went ahead and aided it. Please help us on maintenance on our rural roads. We live in Golden Meadows and are small and need help with gravel or scoria but we don't even get an offer when we inquire.

City-let's get Madison completed (new ling) stop having businesses put in water wasting Landscapes tha are not even maintained anyway. County-no more for Cam-Plex-what a money pit. I's not rodeo or RV'er-event center is a fancy central pavillion-where are the events-what a poor job of seating-why dows county need 2 ice rinks-do they pay for it themselves? be responsible in spending. Save for a rainiy day. DO NOT spend any more money on Cam-Plex !

Health, Safety & welfare of all citizens

Let's maintain what we have before we add to our "projects" lists! Needs & wants should be weithed against what we have in regards to finances!

In Campbell County

You have already done a lot of good work on lots of streets. I'm sure we all appreciate that. I don't think very many people understand the overpass off of Burma.

1% sales tax should be used for the original funding it was voted in for.

Street noise is totally out of control. Harley, Pick-ups, now mufflers. This is the noisiest city in all of America, if you city council don't believe me, go stand on Lakeway & 4-J at 5:00 p.m. sometime!!

A riding and roping facility? NO- we spent enough on Cam-Plex for the cowboys. Does 1 % fund the BMX Track, the Motorcross track, or the stock car track? NO-it should not even be on here.

Campbell co has the ability to significantly cut down on the materials going into the landfill. Grind and compost household trash, grind and mulch construction debris, tree limbs, pallets, tires. Use the compost to cover old landfill and in mine

1. Control immigration, send them back to Mexico & Colorado. I'm tired of support of the immigration & deadbeats from other areas, countries and states and not having enough money left over for our own people.

2. Wee need to concentrate on taking care of business and the rest will come. To do the basics the very best the first time, NOT EXTRAVAGANT, basic. Build the best roads, put in the best waterlines, best sewer lines, best storm drains, the best way. Do it right the first time with quality personnel. Not just people to fill the position. Get the BEST people to do the jobs required. WE DO have them locally, and we have lost some of them because we wouldn't use them. Let's not except the immigration and out of staters just because they will work for less or will do the hob. We will also do the hob for just pay. Very great job. All/ IN U.S.A.

Gillette outlying subdivisions need assistance in road repair.

children don't have opportunities to have free places to socialize such as seniors have at the remolded senior citizen center. Youth programs would be a great addition to our communtiy-thanks !

If we're spending money on bike paths, make people use them & stay off the streets. Enforce people to get resident plated & maybe you wouldn't have to have that extra 1 cent tax ! If they mess with McManamen Park -we will lose the shooting range for Gillette-that will effect more people than there are bird watchers.....

All roads to multiple residences who pay taxes should be maintained by the county. Optional sales tax would be a good way to fund this. Think about something new. People have been complaining to the county about this for years.

I think that you shouldn't keep buying statues and maybe do something useful with the money. And I think you guys should stop redoing roads over and over again, not our fault you people can't do it right the first time! We shouldn't have to keep paying for the same road to be done 15 times. It's ridiculous!

Make stop lights for traffic control ! New business ! and resturants, like Red Lobster, chilies, Outback, Olive Garden, TGIF, Ruby Tuesdays, Sears and Penny's stores, not just the small outlets.People go out of town to shop and eat, because of poor service in Gillette and limited shopping !

More traffic lights

The light at Warlow & Burma is one of the best additions! Please keep it!

The stop lights that the city has put up are wonderful. Please keep the one on Warlow & Burma. The City of Wright is our County neighbor when they need our help we should be willing to be there for them. Isn't that what this community is about? Helping others?

Gillette is a good place to live & raise a family - ditto Campbell County.

Can we find a way to burn our solid waste and generate power with the heat?

Dust control from coal mines and county roads

Dust control-coal mines and county roads. We do not have clean air!

New overpass is a joke and who even had anything to do with it should resign or be fired.

Even greater efforts in recycling are needed. Finding markets or working with other communities in Wyoming to find outlets for more plastics, glass, etc.

I live in the south western part of the county on a ranch

Wright shooting range may be able to quality for grants from NRA or Wyo. Game & Fish.

Quit spending money on all the goofy statues around town.

The counties and cities need to stick to a budget

I do not use anything in Wright or Gillette, but I think the kids deserve the best. Gillette already has the finest of things, I would rather not waste any money on anything but the kids.

provide help to seniors for repairs on houses.

I don't know why you would want a comment from me. Know time & again I speak up only for it to land on deaf ears ! This community is extravagant ! It is so embarrassing !

some of these projects are great, but I think city and county funding should be used and they penny power should be used to "better the city" not maintain what should be done already.

Something big needs to happen to alleviate the drug problem and people running red lights. Today I saw two people run the red lights with a police officer at the intersection, and he choose not to do anything. Shame on him

A bike path unencumbered by side streets (& having to stop at intersections for vehicle traffic) would be great for exercise.

Our bike/walking paths need expanded & upgraded. The path along Ganer Lake is great but needs improvements bad. A bike path along east 14-16 is greatly needed. I see people walking along it & biking & its a dangerous fast road. I have to take side streets to bike to the west side of downtown or to Cam-Plex because 14-16 is too unsafe.

There needs to be a turning lane at Echeta & 14-16. Traffic buildup is bad

Thank you for the good work !

Our community members residents need to get on board with a zero tolerance for alcohol dui's and illegal drugs. Gangs have come to this community for the . Everyone is impacted in one way or another directly or indirectly. The city & county need to work on this huge problem-from the huffing to smoking to injecting & help those in need of it.

Hospital overpass was said to relieve pressure from I-90 Exit #124. It is not helping. Traffic is still awful here from 4-7pm.

Alot of money spent for no return.

I think this is the fairest tax of all and should be used for the benefit of all. I am retired and on a fixed income so all the higher taxing, utility cahrges etc. can be a burden.

Gillette needs to find a good planning agency who can think ahead instead of wasting work already done. We would love to see a new waste management system developed burning garbage, incineration, filter smoke with water then filter water.

Eco-friendly.

Plan for maintenance of current facilities not building more facilities, not continuing to expand projects.

Remember when maintaining paths/moweing that people live on the east side of town also. Weeds along Boxelder East of Butler Spaeth are a hazard on the bike path (which is a mess). Bike path from O'Hara to Boxelder south to Complex is about 10 years past needing fixed. Enough is enough for 4-J

No south Campbell County airport! We can't support the one in the County, we sure as hell don't need another one.

Nothing else at Complex. Wyoming Center - what a joke!

The City does not need to own the CAM-Plex

1. Don't need to be taxed anymore

2. Why did the City take over the CAM-Plex.

I am retired

Quit building these big expensive buildings that will cost us a fortune forever!

I enjoy seeing our money spent wisely and seeing what it is being used for.

I like that the City handles electricity billing.

I would like to see both County & City stop using any chloride products on our winter streets. Use scoria or sand.

Bike Paths are important, beautification projects are low priority, money has been spent unwisely.

Keep on top of potholes - road dips for weathering.

Would like the Penny Power used for things we wouldn't ordinarily have as part of the City or County (normal services) such as parks & improvements thereof, bike paths, helping youth programs such as Boys & Girls Club etc.

I didn't feel qualified to answer the Wright section, so you can disregard, if you wish.

You are doing a good job so far.

1. Get Mexicans out of our city, sex offender in prison, drug offenders in prison.

2. Stop family violence, more police

We are 70 yrs of age with children & grandchildren living here. We appreciate law enforcement and the high quality of our town/county, using Senior Center, Schools, Rec Center, Chruches, Complex and other benefit. Good job!

I also think the elementary/Jr/Sr. high schools need the best of what we can give them for their education. For example, computers, field trips to places we don't have in Gillette like art galleries, zoos, maybe even views of areas in Denver that have needs (human) like homeless populations, ghettos.

Please build a footbridge across the fishing lake to complete the path by Hwy. 59 where Donkey Creek enters so kids & pets don't have to walk along busy Hwy. 59.

The street alleys are terrible. I even spray the other neighbors' weeds. Trucks & cars can't drive under trees without touching the limbs. Let people know when trees/bushes are being trimmed. My lilacs were ruined. Thank you.

The boys and girls club needs help

Equal opportunities by County for all of Campbell County!

Please stop incurring spending i.e. beautification Projects, etc.

We pay taxes, high taxes, to the County for nothing! We can hardly get in & out to go to work, school, dr., etc. because of our bad, unmaintained roads! Our Lying County Commissioners, who said it would be done this summer. I checked with Osborne Bros. & they said they had a contract with them to do this road in Ruby Hills Subdivision. But the Commissioners backed out and gave \$300,000 to Recluse instead!

The current Maintenance bldg at the fire dept is not big enough for the largest trucks to fit inside. The mechanics often work outside in below zero temps. to keep our fire trucks up and running

The bike path that parallels Boxelder from the Boxelder/Butler Spaeth intersection is in bad shape in several places. Make sure the snow plows don't refill my drive and sidewalks!

1) Let the Town of Wright fund their own needs

2) Airport in Wright-are you nuts??

Why not figure out a way to move Boys & Girls Club to old rec center location. They need a bigger space & the old facility would be very adaptable for this program. Can we afford to donate as a community for our youth?

I think the improvements to the city parking lot are way overboard. There are a lot of streets that could use some of that money for repaving. Make the lot square, pave it and put parking curb on each space.

The old recreation center needs to be given to or leased to the Boys & Girls Club.

Gillette has done a great job of cleaning up what was a dirty little boom town! Keep up the good work!

Review stop signs, many should be yield signs instead. Kill the weeds on sidewalks and curbs. Use reflective paint when painting roads.

We live on Cook Road, and would like to see a bike path developed along Echeta Rd to Hwy 14-16.

Trucks exit interstate and go through town for shorter access to highways. Ex: Large trucks using Warlow instead of interstate. How many of these trucks carry toxic or dangerous materials close to residential areas. Oversized loads should be restricted to less high traffic times. Ex: When they moved schoolhouse to Rockpile.

not a bike friendly town.

Water System Improvement and Additional Water Supply, should be Gillette and Campbell County's first priority for 1% Sales Tax funds. A fair percentage must like wise be allocated to Wright for their use. Wright has been treated like a poor cousin, and resents having to ask for their "equal" share of 1% County Tax funds. The County needs to pay attention to Wright.

I-90 needs an exit at mile marker 139.

Much more needs to be done to eliminate meth use in our area. Whenever I see meth users, which is frequently, I get very upset that users are just ruining their lives. Gillette/Campbell County also need to look to the future instead of having instant gratification on so many projects. Also, I do not understand why this community will not/cannot help Boys and Girls Club. What are your priorities - Instant gratification or investment in the future?

spend the money on infrastructure that is essential to the well being and quality of life of all residents and property owners You need to go to downtown Rapid City and get ideas. Gillette has a lot to learn. We have lots of money and way too much is spent on Fire Dept! Make Gillette a beautiful place to live & visit!

The entire infrastructure should be first priority; to keep it functioning as designed & operating at as built conditions. Too often we forget drainage until it floods; forge water lines until they break; forget streets until they have to be rebuilt. Be proactive in maintenance & operations!

You are doing a great job! Gillette is a very nice place to live.

Stop problems existing between City & County government

Money is spent on projects - But money is not enough, set aside to maintain them and upkeep. It always costs more than what is set aside in the budget.

Creating bike & walking pathways around Gillette, Rozet & Campbell County helps to keep the population healthy!!!

community art program is great -- love outdoor art.

support a consultant to allocate city-county joint projects, eg: fire board and CAM-PLEX

balance infrastructure needs with activities / beautification

at least 10 percent cap reserve

The Boys and Girls Club should get the old Rec Center.

The highest priority for the City of Gillette: Not spending money needlessly

The highest priority for Campbell County: Saving Money

can 1% monies be used for large print books for elderly/senior citizens? If so-demand is there for our increasing elderly population.

Buying art for beautification is a waste of Money

Penny Power money needs to be used to take better care of the parks already in existence. sunflower Park has large areas of brown where the sprinklers apparently didn't reach. The drainage is often filled with slimy garbage. I think services for handicapped should be a part of your survey. They are citizens like everyone else.

Drop the Tax ! I do not like it ! What do you mean by optional 1 % sales tax? I do not have to pay it ? You can find the funding elsewhere !! Prioritize !!!!!

Gillette people should not determine what or how Wright spends their 1% money, and neither should Wright determine how Gillette spends money - Separate form for each!

Just say NO-only the essentials ! We are not in Heaven yet ! What about 4 lanes to Wright-have you ever been to Cody & Our seniors deserve better instead of being pushed to the end of the line.

I would love to see some continuity in the bike paths/walking paths. There are many paths, but they don't interconnect so it's not safe to take kids on for any distance. For example, I live in Sleepy Hollow, I can take the bike path up to 59, but then I have to ride on busy 59 to Southern Dr. Then I can take a bike path to Enzi Dr., but then there is no path or sidewalk even to the new Rec Center. We should continue encouraging healthy active lifestyles in Gillette by making these types of facilities and other areas in town easier to access and friendlier to bikes and walkers! Thanks!

I think that Wright needs to get a lot larger share than what they have in the past. The population of Wright would increase if they had any kind of services and things for children to do.

Spend the funds with care!

Wright needs more than Gillette. Gillette takes it all. Just about everything is priority there. They do without while Gillette gets it all.

NO funding for Cam-Plex. It was pushed through against voters wishes

Sell hospital, Rec Center, Road and Bridge, Complex and other properties to private enterprise and let them pay taxes, instead of being a tax drain.

seniors, youth & substance abuse should be included in Human Service providers contract for services.

Make N. Sage Hill, Deer Run, Coyote Trail through Ridgeway Rd. a County Rd. & maintain for the over 1000 people who live out there. No more lies!

Enzi Dr. needs a bike path

Biggerstaff Rd. & other side roads-blade for maintenance!

Stop giving 33% raises!

Wind turbine for College Learning

Lets be more frugal-Cam-Plex is a joke !

Stop use of mag chloride use scoria or sand on winter streets

Four lane Highway 50 - Skyline to Southern with right hand turn lanes.
