National Banned Books Week: September 27-October 3
Census Bureau Encourages Wyomingites to Stop the Knock

Every 10 years, the United States, including five U.S. territories, counts its population. It’s a requirement written into the Constitution and conducted by the U.S. Census Bureau, a nonpartisan government agency. The census provides critical data that lawmakers, business owners, teachers, and many others use to provide daily services, products, and support for you and your community. Every year, billions of dollars in federal funding go to hospitals, fire departments, schools, roads, and other resources based on census data. The results of the census also determine the number of seats each state will have in the U.S. House of Representatives, and they are used to draw congressional and state legislative districts. The 2020 Census will mark the 24th time that the country has counted its population since 1790.

Households can respond to the Census by completing and mailing back the paper questionnaire they received, by phone at 844-330-2020, or by responding online at 2020census.gov. If you don’t respond to the census soon, you’ll most likely get a Census employee knocking on your door this month to obtain your Census responses. Campbell County Public Library and Wright Branch Library have computers ready and waiting so you can Stop the Knock! The door-to-door operation is scheduled to end on September 30.

Wyoming’s current self-response rate is 57.8% and the national rate is 63.2%. Campbell County made the Top Ten list in the county response rate. Gillette’s rate is at 60.6% and Wright’s 34.9%. Come on Campbell County! Let’s Stop the Knock and finish at number one!

The Liberation of Auschwitz: A Historical Remembrance and Memorial
presented by John Egan
•Wednesday, October 14, 7pm

Campbell County Public Library is pleased to welcome historian John Egan for a presentation titled The Liberation of Auschwitz: A Historical Remembrance and Memorial. January 27, 2020 marked the 75th anniversary of the liberation of Auschwitz.
This presentation will focus on the Auschwitz extermination camp through a series of rare photographs—the only ones which somehow were allowed to be taken. In addition, Auschwitz will be placed within a context of the larger Holocaust and the forces which led to it.

Describing this presentation, Egan says “remembrance is the most powerful counter to the hatred that spawned the Holocaust. Six million is more than a number. It is six million individual lives, families, communities. Thus, there will also be a retelling of the life stories of some of those who perished.”

John Egan is a semi-retired historian who has taught at Sheridan College and the University of Kansas, focusing on Holocaust history and the history of 20th century genocides.

The program is free and open to the public. The materials are not appropriate for young children. Appropriate for high school students and up; maybe for advanced middle school students. Seating is limited to 50. First come, first served.

October 2020

Among the Stacks

Dear Library Patrons,
Everyone loves a bargain, and Campbell County Public Library and Wright Branch Library are two of the best bargains in our communities. Library services cost the owner of a $220,000 home in Campbell County just $17.99 in taxes per year. At this nominal annual cost, there is a lot to love about your library. Check out the value of an average in-person or virtual visit to your library by one adult and two children:

• 2 adult fiction books = $50
• 1 adult nonfiction book = $30
• 3 youth books = $63
• 1 audio book = $45
• 2 videos = $20
• Brainfuse homework assistance via a live tutor = $3,300 (yearly)
• World Book encyclopedia article for school report = $1,500 (yearly)
• ABC Clio full text article for school world history report = $3,160 (yearly)

What a bargain, right? And there’s more—we have something for everyone to love.

Children love libraries. Help your children develop early literacy skills by bringing them to the library to attend Storytime, play with an Early Literacy Station to develop technology skills, and select a book to take home and read. The library’s summer reading programs are well-loved by patrons of all ages but are also particularly useful in helping children retain reading skills over the summer.

Teens love libraries. The library is a safe space for teens to socialize. They can be part of a club, volunteer, or play tabletop games. They can also become creators by using our 3D printers and other tools available in our makerspaces.

We have access to computers for homework or entertainment, and they often grab a book before they leave the library. It’s heartwarming to see that the teen book collection circulates very well.

Adults love libraries. In addition to collections, movies, and makerspaces, the library offers study rooms, quiet space, and computers for public use. We can help you find a good book, and we pride ourselves in offering the highest level of personal service to help you in your quest for information. We also host a variety of programs, ranging from gardening classes to Celtic guitarists to book discussions, to name a few.

Homebound patrons love libraries. We bring the library to the community by providing outreach services to people who can’t come to us. This is a lifeline to people who otherwise would not have access to library materials.

In recent weeks, you’ve been “showing the love” with your good-natured response to the “Love My Library” yard sign campaign. Thank you everyone who generously donated to this Library Foundation fundraiser. Didn’t get a ♥ My Library yard sign? Stop by your library and ask for one.

We love you too. We hope you partake in your library’s wealth of services and materials for Adventure truly Starts Here. You are our friends and neighbors and supporters, and we look forward to seeing you soon.

Love, Your Library
